3T Pro Inc is a Dallas computer repair, support and consulting firm specializing in on-site network repair and desktop support for its clients. We offer the best and most affordable rates for all your desktop repair and network consulting needs including hardware repairs, virus removal, data recovery and much more. As one of the leaders in the industry our consultants provide fast on-site services anywhere in the Dallas Metroplex and supported areas. Hundreds of satisfied clients have experienced our excellent on-site support and repair services since 1992. 3T Pro's computer consulting staff has an average of 17 years of experience in the business. Our consultants are certified in Microsoft and various other technologies. By leveraging this experience in your business an amazing transformation will occur in how you view IT support services. If you are ready to experience true peace of mind when it comes to your network systems please give us a call today for a free evaluation.

Remember: "If it requires power we probably support it!"
